

Power2Practice sales email

We are excited to announce our integration with SpectraCell Laboratories!

Now, you can order and save your favorite tests, print requisition forms, get results electronically and share results with patients using the portal (at your discretion).

[Click here](#) to learn how P2P makes Integrative care easier on providers, patients and staff.

P2P is Designed for the Way YOU Practice

Specialized lab tests, unique dietary supplements and custom compounds are common components of personalized treatment plans. P2P streamlines your most time-intensive clinical processes while providing a library of over 30,000 nutraceuticals to choose from while charting.
